👤 PROFILE

Junior Front-end Developer specialized in React, Next.js and Vue.js, with a focus on performance, clean architecture and AI applied to development.

📁 PROFESSIONAL EXPERIENCE

Hackmetrix

02/2025 – 08/2025

Web Developer (Internship)

Buenos Aires, Argentina

- Frontend and backend bug resolution, from interface errors to integration issues, maintaining application stability and user experience.
- Technical incident management through a ticketing system, providing support to internal teams and external users with a focus on response times.
- Development of new visual interface features using Next.js and Vue.js, from initial design through to production deployment.
- Backend and frontend integration through SQL queries and API connections, ensuring efficient communication between application layers.
- Implementation of unit and E2E tests using Cypress prior to each deployment, guaranteeing code quality and stability in production.
- Adaptation to different technology stacks based on project requirements, combining development, maintenance, and improvement proposal tasks.

TaskWise

Personal Project - In progress

- Development of a SaaS task management application with AI-powered automatic prioritization, integrating Groq + Llama 3.3 for task analysis and classification.
- Implementation of authentication and PostgreSQL database using Supabase, managing user registration, sessions, and data persistence.
- Construction of an interactive dashboard with Next.js 15 and TypeScript, using Tailwind CSS and shadcn/ui for a clean interface organized by priority levels.
- Deployment and hosting of the application on Vercel with environment variable configuration and production workflow setup.

🧠 SKILLS

- **Languages:** JavaScript, TypeScript, HTML5, CSS3, SQL
- **Frameworks:** Next.js 15, Vue.js
- **Styles:** Tailwind CSS, shadcn/ui
- **Database:** Supabase, PostgreSQL
- **Testing:** Cypress
- **Tools:** Git, GitHub, Vercel, Postman
- **Extras:** REST API integration, AI applied to development (Groq + Llama 3.3)
